PETROLINE Co. W.L.L

A better solution that suits your service needs.

Excellence | Quality | Trust

Operational Excellence

PETROLINE is a multi-disciplinary services company. It supports the customers with services of access solutions, Painting & coating, Insulation, Refractory, Fireproofing and various other general contracting services for Civil and MEP

Our Strength

PETROLINE, is a sister concern of Meridian Group of companies having a pool of 1000 skilled manpower in various categories, who deliver excellent service using latest technologies. PETROLINE is led by a highly experienced team. For PETROLINE, people are everything. Our team of professionals with knowledge, skills and fortitude to produce the best solutions for success, is always ready to satisfy customers' expectations.

Our Philosophy

PETROLINE seeks to ensure the highest standards of quality, health, safety and environmental protection to meet the requirements and expectations of our stakeholders.

Fulfilling customers' expectations by increasing our commitment to quality aspects drives the management of our organisation.

People and Priorities

Our Human Capital is our Priority

PETROLINE prides itself on having very good and proactive human capital management policies, with our main aim to be one of the Employers of Choice in the Middle East region.

PETROLINE believe we provide great job opportunities, whether full-time, part-time or project-based jobs. Reasonable salaries and suitable work hours are among the reasons why working at Petroline is beneficial for its employees.

Creativity at Work

PETROLINE believe in encouraging the employees to think outside of the box and giving them time and resources to explore new areas for innovative ideas is the key to cost-effective business solutions.

Quality is our Prime Priority in Every Sphere of our Business

PETROLINE providing top notch quality of services and quality efficient products is an endeavor undertaken by Petroline. Satisfying the clients by providing superior quality and workmanship is the mantra imbibed by Petroline.

PETROLINE products and services exceed the requirements of the various core ISO and other relevant certifications.

Our Priority is Health, Safety, and Environment

As a business that handles hazardous materials in difficult conditions, PETROLINE make the health and safety of people our top priority. This commitment extends to every platform, every plant, every office and every community in which we operate. Throughout the life cycle of our projects and operations, PETROLINE aim to avoid, reduce and manage potential environmental and social impacts.

Our Business

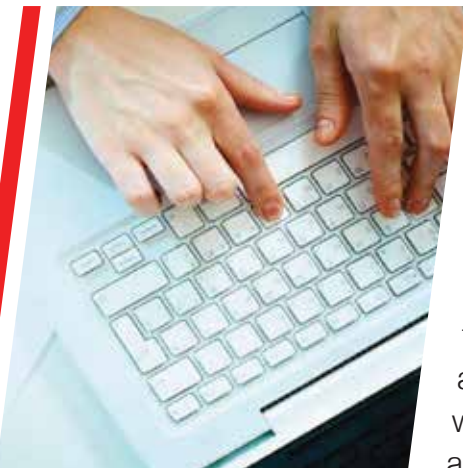

Flexible solutions for your business needs

From construction to maintenance, for construction or modification projects, PETROLINE are able to draw upon large pools of skilled workers, providing every discipline necessary for the construction or modification of plants and installations. Our project management and logistics skills ensures that all of the different processes and disciplines are synchronized, delivering projects on-time with no surprises. When it comes to maintenance, our customers can rely on us to perform the most complex shut-downs and turnarounds safely and efficiently.

PETROLINE Services

- ◆ ***Access Solutions***
- ◆ ***Insulations***
- ◆ ***Painting & Coatings***
- ◆ ***Fireproofing***
- ◆ ***Refractory***
- ◆ ***General Contracting (Civil & MEP)***

Access Solutions

The provision of access solutions (not just scaffolding) is a common component within our services. All access, however provided, conforms with the most stringent safety requirements as well as statutory and customer related regulations.

Advanced scaffold systems utilised by PETROLINE, based upon ergonomic principles, ensure that the safety of our people and those working around us is of the highest possible standard whilst at the same time providing a cost effective alternative to our customers.

PETROLINE's access capabilities include a full suite of operational and support services including;

- | | |
|----------------------------------------------|-------------------------------------------------------|
| ◆ <i>Scaffolding</i> | ◆ <i>System & Conventional Scaffolding</i> |
